## *Acknowledgments*

In the process of the five years of this study there have been a considerable number of people who have walked along the path with me, supporting in different ways, as only individuals can. I apologise if I miss anyone from this list, but if I do, please recognise that I appreciated you.

Thanks firstly must go to those who have supervised me over the EdD; Martin Ashley and Saville Kushner, who gave me the opportunity to start the programme; Jacky Brine, who challenged and supported as my original Director of Studies. But primarily Lynn Raphael-Reed, who has sat alongside me through some difficult times while gently advising and guiding and allowing me the freedom to explore and experiment. You have been a true mentor and I hope to follow your example. Thank you.

Thanks go to the midwives who were prepared to share their stories and 'play' along with me in the context of the study. I am grateful for your willingness to be so open. In doing so you have revealed the reality of being a midwife in the NHS today, which, hopefully maybe of help to others.

To my EdD cohort, especially, Fiona, Lynn, Faye, Richard and Alan and all the others who have been stimulating 'co-eddies', have challenged and inspired and have made me laugh! Thank you for the fun.

To my work colleagues, who have been incredibly patient and supportive and put up with extra work load from me at times: I owe you.

To my friends who have put up with seeing me less and having me less 'with it': thanks for being there and helping me through.

To Becky Reed and The Practising Midwife journal: special thanks to you for loaning the photos for this study.

To my daughters, who have grown up considerably in the time of this thesis, who have lived with the mess, more take-aways and have not understood what this is all about. I hope one day you will read it and see that you have been part of this story,

and have impacted on it. I am sorry for being so distracted at times, but you are always in my heart.

Finally, to my husband Mark: you know this study is yours too, that you have lived it alongside me and have put up with late night working, more house work than you should be doing, extra running around with the children, and no dining room for years! I could not have done this without you and I truly love you and appreciate who you are.

This work is dedicated to my parents, Ken and Maggie, who have had some tough times over the past few years. I hope you are proud of me.
