Discussion Points

• What is the current state of digital projection?
• Why has it taken longer for digital technologies to permeate into exhibition?
• What are the main logistical and aesthetic obstacles currently faced in this area?
• What are the economic issues surrounding digital exhibition?
• What formats have been developed to deliver and protect copyrighted content in cinemas?
• Has digital exhibition finally ‘matured’?
• What is the future of ‘film’ as an exhibition medium?
• What is at stake following recent changes?

- Digital technology is hagiographised as being a catch-all “solution” to film restoration but we need to be watchful of the conflating of lots of different kinds of technology and a blind faith in digital as the answer to restoration / preservation problems.

- Saint Lucy, Patron Saint of Vision, sacrificed her ideas for her Christian faith….
